About College Board

College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, College Board was created to expand access to higher education. Today, the membership association is made up of over 6,000 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success—including the SAT® and the Advanced Placement® Program. The organization also serves the education community through research and advocacy on behalf of students, educators, and schools.

For further information, visit collegeboard.org.

AP Equity and Access Policy

College Board strongly encourages educators to make equitable access a guiding principle for their AP programs by giving all willing and academically prepared students the opportunity to participate in AP. We encourage the elimination of barriers that restrict access to AP for students from ethnic, racial, and socioeconomic groups that have been traditionally underrepresented. Schools should make every effort to ensure their AP classes reflect the diversity of their student population. College Board also believes that all students should have access to academically challenging coursework before they enroll in AP classes, which can prepare them for AP success. It is only through a commitment to equitable preparation and access that true equity and excellence can be achieved.

About AP

College Board's Advanced Placement® Program (AP®) enables willing and academically prepared students to pursue college-level studies—with the opportunity to earn college credit, advanced placement, or both—while still in high school. Through AP courses in 38 subjects, each culminating in a challenging exam, students learn to think critically, construct solid arguments, and see many sides of an issue—skills that prepare them for college and beyond. Taking AP courses demonstrates to college admission officers that students have sought the most challenging curriculum available to them, and research indicates that students who score a 3 or higher on an AP Exam typically experience greater academic success in college and are more likely to earn a college degree than non-AP students. Each AP teacher's syllabus is evaluated and approved by faculty from some of the nation's leading colleges and universities, and AP Exams are developed and scored by college faculty and experienced AP teachers. Most four-year colleges and universities in the United States grant credit, advanced placement, or both on the basis of successful AP Exam scores; more than 3,300 institutions worldwide annually receive AP scores.

AP Course Development

In an ongoing effort to maintain alignment with best practices in college-level learning, AP courses and exams emphasize challenging, research-based curricula aligned with higher education expectations.

Individual teachers are responsible for designing their own curriculum for AP courses and selecting appropriate college-level readings, assignments, and resources. This course and exam description presents the content and skills that are the focus of the corresponding college course and that appear on the AP Exam. It also organizes the content and skills into a series of units that represent a sequence found in widely adopted college textbooks and that many AP teachers have told us they follow in order to focus their instruction. The intention of this publication is to respect teachers' time and expertise by providing a roadmap that they can modify and adapt to their local priorities and preferences. Moreover, by organizing the AP course content and skills into units, the AP Program

is able to provide teachers and students with formative assessments—Personal Progress Checks—that teachers can assign throughout the year to measure students' progress as they acquire content knowledge and develop skills.

Enrolling Students: Equity and Access

College Board strongly encourages educators to make equitable access a guiding principle for their AP programs by giving all willing and academically prepared students the opportunity to participate in AP. We encourage the elimination of barriers that restrict access to AP for students from ethnic, racial, and socioeconomic groups that have been traditionally underserved. College Board also believes that all students should have access to academically challenging coursework before they enroll in AP classes, which can prepare them for AP success. It is only through a commitment to equitable preparation and access that true equity and excellence can be achieved.

Offering AP Courses: The AP Course Audit

The AP Program unequivocally supports the principle that each school implements its own curriculum that will enable students to develop the content understandings and skills described in the course framework.

While the unit sequence represented in this publication is optional, the AP Program does have a short list of curricular and resource requirements that must be fulfilled before a school can label a course "Advanced Placement" or "AP." Schools wishing to offer AP courses must participate in the AP Course Audit, a process through which AP teachers' course materials are reviewed by college faculty. The AP Course Audit was created to provide teachers and administrators with clear guidelines on curricular and resource requirements for AP courses and to help colleges and universities validate courses marked "AP" on students' transcripts. This process ensures that AP teachers' courses meet or exceed the curricular and resource expectations that college and secondary school faculty have established for college-level courses.

The AP Course Audit form is submitted by the AP teacher and the school principal (or designated administrator) to confirm awareness and understanding of the curricular and resource requirements. A syllabus or course outline, detailing how course requirements are met, is submitted by the AP teacher for review by college faculty.

Please visit collegeboard.org/apcourseaudit for more information to support the preparation and submission of materials for the AP Course Audit.

How the AP Program Is Developed

The scope of content for an AP course and exam is derived from an analysis of hundreds of syllabi and course offerings of colleges and universities. Using this research and data, a committee of college faculty and expert AP teachers work within the scope of the corresponding college course to articulate what students should know and be able to do upon the completion of the AP course. The resulting course framework is the heart of this course and exam description and serves as a blueprint of the content and skills that can appear on an AP Exam.

The AP Test Development Committees are responsible for developing each AP Exam, ensuring the exam questions are aligned to the course framework. The AP Exam development process is a multiyear endeavor; all AP Exams undergo extensive review, revision, piloting, and analysis to ensure that questions are accurate, fair, and valid, and that there is an appropriate spread of difficulty across the questions.

Committee members are selected to represent a variety of perspectives and institutions (public and private, small and large schools and colleges), and a range of gender, racial/ethnic, and regional groups. A list of each subject's current AP Test Development Committee members is available on apcentral.collegeboard.org.

Throughout AP course and exam development, College Board gathers feedback from various stakeholders in both secondary schools and higher education institutions. This feedback is carefully considered to ensure that AP courses and exams are able to provide students with a college-level learning experience and the opportunity to demonstrate their qualifications for advanced placement or college credit.

How AP Exams Are Scored

The exam scoring process, like the course and exam development process, relies on the expertise of both AP teachers and college faculty. While multiple-choice questions are scored by machine, the free-response

questions and through-course performance assessments, as applicable, are scored by thousands of college faculty and expert AP teachers. Most are scored at the annual AP Reading, while a small portion is scored online. All AP Readers are thoroughly trained, and their work is monitored throughout the Reading for fairness and consistency. In each subject, a highly respected college faculty member serves as Chief Faculty Consultant and, with the help of AP Readers in leadership positions, maintains the accuracy of the scoring standards. Scores on the free-response questions and performance assessments are weighted and combined with the results of the computer-scored multiple-choice questions, and this raw score is converted into a composite AP score on a 1–5 scale.

AP Exams are **not** norm-referenced or graded on a curve. Instead, they are criterion-referenced, which means that every student who meets the criteria for an AP score of 2, 3, 4, or 5 will receive that score, no matter how many students that is. The criteria for the number of points students must earn on the AP Exam to receive scores of 3, 4, or 5—the scores that research consistently validates for credit and placement purposes—include:

- The number of points successful college students earn when their professors administer AP Exam questions to them.
- The number of points researchers have found to be predictive that an AP student will succeed when placed into a subsequent, higher-level college course.
- Achievement-level descriptions formulated by college faculty who review each AP Exam question.

Using and Interpreting AP Scores

The extensive work done by college faculty and AP teachers in the development of the course and exam and throughout the scoring process ensures that AP Exam scores accurately represent students' achievement in the equivalent college course. Frequent and regular research studies establish the validity of AP scores as follows:

AP Score	Credit Recommendation	College Grade Equivalent
5	Extremely well qualified	A
4	Well qualified	A-, B+, B
3	Qualified	B-, C+, C
2	Possibly qualified	n/a
1	No recommendation	n/a

While colleges and universities are responsible for setting their own credit and placement policies, most private colleges and universities award credit and/or advanced placement for AP scores of 3 or higher. Additionally, most states in the U.S. have adopted statewide credit policies that ensure college credit for scores of 3 or higher at public colleges and universities. To confirm a specific college's AP credit/placement policy, a search engine is available at apstudent.org/creditpolicies

BECOMING AN AP READER

Each June, thousands of AP teachers and college faculty members from around the world gather for seven days in multiple locations to evaluate and score the free-response sections of the AP Exams. Ninety-eight percent of surveyed educators who took part in the AP Reading say it was a positive experience.

There are many reasons to consider becoming an AP Reader, including opportunities to:

- **Bring positive changes to the classroom:** Surveys show that the vast majority of returning AP Readers—both high school and college

educators—make improvements to the way they teach or score because of their experience at the AP Reading.

- **Gain in-depth understanding of AP Exam and AP scoring standards:** AP Readers gain exposure to the quality and depth of the responses from the entire pool of AP Exam takers, and thus are better able to assess their students' work in the classroom.
- **Receive compensation:** AP Readers are compensated for their work during the Reading. Expenses, lodging, and meals are covered for Readers who travel.
- **Score from home:** AP Readers have online distributed scoring opportunities for certain subjects. Check collegeboard.org/apreading for details.
- **Earn Continuing Education Units (CEUs):** AP Readers earn professional development hours and CEUs that can be applied to PD requirements by states, districts, and schools.

How to Apply

Visit collegeboard.org/apreading for eligibility requirements and to start the application process.

AP Resources and Supports

By completing a simple activation process at the start of the school year, teachers and students receive access to a robust set of classroom resources.

AP Classroom

AP Classroom is a dedicated online platform designed to support teachers and students throughout their AP experience. The platform provides a variety of powerful resources and tools to provide yearlong support to teachers and enable students to receive meaningful feedback on their progress.

UNIT GUIDES

Appearing in this publication and on AP Classroom, these planning guides outline all required course content and skills, organized into commonly taught units. Each unit guide suggests a sequence and pacing of content, scaffolds skill instruction across units, and organizes content into topics.

PERSONAL PROGRESS CHECKS

Formative AP questions for every unit provide feedback to students on the areas where they need to focus. Available online, Personal Progress Checks measure knowledge and skills through multiple-choice questions with rationales to explain correct and incorrect answers, and free-response questions with scoring information. Because the Personal Progress Checks are formative, the results of these assessments cannot be used to evaluate teacher effectiveness or assign letter grades to students, and any such misuses are grounds for losing school authorization to offer AP courses.*

PROGRESS DASHBOARD

This dashboard allows teachers to review class and individual student progress throughout the year. Teachers can view class trends and see where students struggle with content and skills that will be assessed on the AP Exam. Students can view their own progress over time to improve their performance before the AP Exam.

AP QUESTION BANK

This online library of real AP Exam questions provides teachers with secure questions to use in their classrooms. Teachers can find questions indexed by course topics and skills, create customized tests, and assign them online or on paper. These tests enable students to practice and get feedback on each question.

*To report misuses, please call, 877-274-6474 (International: +1-212-632-1781).

Digital Activation

In order to teach an AP class and make sure students are registered to take the AP Exam, teachers must first complete the digital activation process. Digital activation gives students and teachers access to resources and gathers students' exam registration information online, eliminating most of the answer sheet bubbling that has added to testing time and fatigue.

AP teachers and students begin by signing in to [My AP](#) and completing a simple activation process at the start of the school year, which provides access to all AP resources, including AP Classroom.

To complete digital activation:

- Teachers and students sign in to, or create, their College Board accounts.
- Teachers confirm that they have added the course they teach to their AP Course Audit account and have had it approved by their school's administrator.
- Teachers or AP Coordinators, depending on who the school has decided is responsible, set up class sections so students can access AP resources and have exams ordered on their behalf.
- Students join class sections with a join code provided by their teacher or AP Coordinator.
- Students will be asked for additional registration information upon joining their first class section, which eliminates the need for extensive answer sheet bubbling on exam day.

While the digital activation process takes a short time for teachers, students, and AP Coordinators to complete, overall it helps save time and provides the following additional benefits:

- **Access to AP resources and supports:** Teachers have access to resources specifically designed to support instruction and provide feedback to students throughout the school year as soon as activation is complete.
- **Streamlined exam ordering:** AP Coordinators can create exam orders from the same online class rosters that enable students to access resources. The coordinator reviews, updates, and submits this information as the school's exam order in the fall.
- **Student registration labels:** For each student included in an exam order, schools will receive a set of personalized AP ID registration labels, which replaces the AP student pack. The AP ID connects a student's exam materials with the registration information they provided during digital activation, eliminating the need for pre-administration sessions and reducing time spent bubbling on exam day.
- **Targeted Instructional Planning Reports:** AP teachers will get Instructional Planning Reports (IPRs) that include data on each of their class sections automatically rather than relying on special codes optionally bubbled in on exam day.

Instructional Model

Integrating AP resources throughout the course can help students develop the historical thinking skills and conceptual understandings. The instructional model outlined below shows possible ways to incorporate AP resources into the classroom.

Plan

Teachers may consider the following approaches as they plan their instruction before teaching each unit.

- Use the **Unit at a Glance** table to identify related topics that build toward a common understanding, and then plan appropriate pacing for students.
- Identify useful strategies in the **Instructional Approaches** section to help teach the concepts and skills.

Teach

When teaching, supporting resources could be used to build students' conceptual understanding and their mastery of skills.

- Use the topic pages in the **unit guides** to identify the required content.
- Integrate the content with a skill, considering any appropriate scaffolding.
- Employ any of the instructional strategies previously identified.
- Use the available resources on the topic pages to bring a variety of assets into the classroom.

Assess

Teachers can measure student understanding of the content and skills covered in the unit and provide actionable feedback to students.

- At the end of each unit, use **AP Classroom** to assign students the online **Personal Progress Checks**, as homework or as an in-class task.
- Provide question-level feedback to students through answer rationales; provide unit- and skill-level feedback using the progress dashboard.
- Create additional practice opportunities using the **AP Question Bank** and assign them through **AP Classroom**.

About the AP U.S. History Course

In AP U.S. History, students investigate significant events, individuals, developments, and processes in nine historical periods from approximately 1491 to the present. Students develop and use the same skills and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change. The course also provides eight themes that students explore throughout the course in order to make connections among historical developments in different times and places: American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures.

College Course Equivalent

AP U.S. History is equivalent to a two-semester introductory college course in U.S. history.

Prerequisites

There are no prerequisites for AP U.S. History. Students should be able to read a college-level textbook and write grammatically correct, complete sentences.

AP U.S. HISTORY

Course Framework

Introduction

The *AP U.S. History Course and Exam Description* defines what representative colleges and universities typically expect students to know and be able to do in order to earn college credit or placement. Students practice the thinking skills used by historians by studying primary and secondary source evidence, analyzing a wide array of historical evidence and perspectives, and expressing historical arguments in writing.

Although the course framework is designed to provide a clear and detailed description of the course content and skills, it is not a curriculum. Teachers create their own curricula to meet the needs of their students and any state or local requirements.

The Inclusion of Names and Specific Historical Examples

As has been the case for all prior versions of the AP U.S. History course, this AP U.S. History course framework includes a minimal number of individual names: the founders, several presidents and party leaders, and other individuals who are almost universally taught in college-level U.S. history courses. As history teachers know well, the material in this framework cannot be taught without careful attention to the individuals, events, and documents of American history; however, to ensure teachers have flexibility to teach specific content that is valued locally and individually, the course avoids prescribing details that would require all teachers to teach the same

historical examples. Each teacher is responsible for selecting specific individuals, events, and documents for student investigation of the material in the course framework.

The Founding Documents

In the context of American history, the in-depth examination of the ideas and debates in the founding documents (e.g., the Declaration of Independence, the Constitution, the Bill of Rights, the Federalist Papers) helps students better understand pivotal moments in America's history. Through close reading and careful analysis of these documents, students gain insights into the remarkable people, ideas, and events that shaped the nation. Ultimately, students with command of the founding documents and a capacity to trace their influence will find opportunities throughout the course to draw on and apply this knowledge.

Throughout the course, students closely read and analyze foundational documents and other primary and secondary sources in order to gain historical understanding. Teachers may use these documents to help students trace ideas and themes throughout American history. On the AP U.S. History Exam, students will be expected to read and analyze primary and secondary sources, draw upon evidence from them, and connect them to the students' own historical knowledge and understanding. For these reasons, teachers may elect to teach the founding documents and the ideas they express in depth during the course.

Course Framework Components

Overview

This course framework provides a description of what students should know and be able to do to qualify for college credit or placement.

The course framework includes two essential components:

1 HISTORICAL THINKING SKILLS AND REASONING PROCESSES

The historical thinking skills and reasoning processes are central to the study and practice of U.S. history. Students should practice and develop these skills and processes on a regular basis over the span of the course.

2 COURSE CONTENT

The course content is organized into commonly taught units of study that provide a suggested sequence for the course. These units comprise the content and conceptual understandings that colleges and universities typically expect students to master to qualify for college credit and/or placement. This content is grounded in themes, which are cross-cutting concepts that build conceptual understanding and spiral throughout the course.

Historical Thinking Skills and Reasoning Processes

This section presents the historical thinking skills and reasoning processes that students should develop during the AP history courses and that form the basis of the tasks on the AP history exams.

Historical Thinking Skills

The AP historical thinking skills describe what students should be able to do while exploring course concepts. The table that follows presents these skills, which students should develop during the AP U.S. History course.

The unit guides later in this publication embed and spiral these skills throughout the course, providing teachers with one way to integrate the skills into the course content with sufficient repetition to prepare students to transfer those skills when taking the AP Exam.

More detailed information about teaching the historical thinking skills can be found in the Instructional Approaches section of this publication.

Course Content

Influenced by the Understanding by Design® (Wiggins and McTighe) model, this course framework provides a description of the course requirements necessary for student success.

The course content is organized into commonly taught units. The units have been arranged in a logical sequence frequently found in many college courses and textbooks.

The nine units in AP U.S. History, and their approximate weighting on the AP Exam, are listed on the following page.

Pacing recommendations at the unit level and in the Course at a Glance provide suggestions for how to teach the required course content and administer the Personal Progress Checks. The suggested class periods are based on a schedule in which the class meets five days a week for 45 minutes each day. While these recommendations have been made to aid planning, teachers should of course adjust the pacing based on the needs of their students, alternate schedules (e.g., block scheduling), or their school's academic calendar.

A NOTE ABOUT PERIODIZATION

Following the example of many subfields within U.S. history, as well as the approach adopted by most U.S. history textbooks, the course framework reflects an acknowledgment that historians differ in how they apply boundaries between distinct historical eras. Several of the periods show some degree of overlap, depending on the thematic focus of the topics in that period. For example, Period 4, which begins in 1800, emphasizes antebellum reform and social change (with 1848 as an ending point because of the Seneca Falls Convention). Period 5 focuses on how expansion led to debates over slavery, thus beginning with Manifest Destiny and the election of James K. Polk in 1844; it spans the Civil War and Reconstruction and ends with the Compromise of 1877. The emphasis in Period 6 on economic development logically begins with the end of the Civil War in 1865 and ends on the eve of the Spanish–American War in 1898. Period 7 uses 1890 as the appropriate starting date for America's rise to global power—a major conceptual focus of the period.

TOPICS

Each unit is broken down into teachable segments called topics. The topic pages (starting on page 37) contain all required content for each topic. Although most topics can be taught in one or two class periods, teachers are again encouraged to pace the course to suit the needs of their students and school.

In order for students to develop an understanding of these topics, teachers select specific historical figures, groups, and events—and the primary and secondary source documents through which they can be examined—that enable students to investigate them. In this way, AP teachers create their own local curricula for AP U.S. History.

Themes

The themes serve as the connective tissue of the course and enable students to create meaningful connections across units. They are often broader ideas that become threads that run throughout the course. Revisiting them and applying them in a variety of contexts helps students to develop deeper conceptual understanding. This theme focuses on how and why definitions of American and national identity and values have developed among the diverse and changing population of North America as well as on related topics, such as citizenship, constitutionalism, foreign policy, assimilation, and American exceptionalism.

THEME 2: WORK, EXCHANGE, AND TECHNOLOGY (WXT)

This theme focuses on the factors behind the development of systems of economic exchange, particularly the role of technology, economic markets, and government.

THEME 3: GEOGRAPHY AND THE ENVIRONMENT (GEO)

This theme focuses on the role of geography and both the natural and human-made environments in the social and political developments in what would become the United States.

THEME 4: MIGRATION AND SETTLEMENT (MIG)

THEME 5: POLITICS AND POWER (PCE)

This theme focuses on how different social and political groups have influenced society and government in the United States as well as how political beliefs and institutions have changed over time.

THEME 6: AMERICA IN THE WORLD (WOR)

This theme focuses on the interactions between nations that affected North American history in the colonial period and on the influence of the United States on world affairs.

THEME 7: AMERICAN AND REGIONAL CULTURE (ARC)

This theme focuses on the how and why national, regional, and group cultures developed and changed as well as how culture has shaped government policy and the economy.

THEME 8: SOCIAL STRUCTURES (SOC)

This theme focuses on how and why systems of social organization develop and change as well as the impact that these systems have on the broader society.

Unit Guides

Introduction

The structure of the unit guides respects new AP teachers' time by providing one possible sequence they can adopt or modify rather than having to build from scratch. An additional benefit is that these units enable the AP Program to provide interested teachers with formative assessments—the Personal Progress Checks—that they can assign their students at the end of each unit to gauge progress toward success on the AP Exam. However, experienced AP teachers who are satisfied with their current course organization and exam results should feel no pressure to adopt these units, which comprise an optional sequence for this course.

The **Unit at a Glance table** shows the topics, related thematic focus, suggested skills, and reasoning processes for each topic. The Class Periods column has been left blank so that teachers can customize the time they spend on each topic.

The **suggested skill** for each topic shows one way teachers can link the content in that topic to a specific AP historical thinking skill. The individual skill has been thoughtfully chosen in a way that helps spiral those skills throughout the course. The questions on the Personal Progress Checks are based on this pairing. However, AP Exam questions may pair the content with any of the skills.

SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	1.2	Shared Inquiry Provide students with a selection of primary and secondary sources that highlight various aspects of Native American societies before European contact. In groups, ask students to formulate responses to Unit 1 Learning Objective 3. Explain how and why various native populations in the period before European contact interacted with the natural environment in North America, and present their ideas to the class. Then lead a whole-group discussion to develop understanding of the complexity of the societies that were in place prior to European contact.
2	1.4	Guided Discussion Ask students to brainstorm the causes of the Columbian Exchange and its effect on Europe and the Americas in the time period after 1492. Through small- and whole-group discussion, ask students to identify the positive and negative effects of the Columbian Exchange.
3	1.6	Quickwrite As preparation for the free-response questions on the AP Exam, have students write claims in response to Unit 1 Learning Objective 1. Explain how and why European and Native American perspectives of others developed and changed in the period. Ask a few students to volunteer to share their claims. Debrief by discussing the strengths and areas for improvement for each claim with the class.

Unit Planning Notes

Use the space below to plan your approach to the unit. Geographic and environmental factors, including competition over and debates about natural resources, shape the development of America and foster regional diversity. The development of America impacts the environment and reshapes geography, which leads to debates about environmental and geographic issues.

LEARNING OBJECTIVE

Unit 1: Learning Objective D

Explain causes of the Columbian Exchange and its effect on Europe and the Americas during the period after 1492.

HISTORICAL DEVELOPMENTS

KC-1.2.I.B

The Columbian Exchange brought new crops to Europe from the Americas, stimulating European population growth, and new sources of mineral wealth, which facilitated the European shift from feudalism to capitalism.

KC-1.2.I.C

Improvements in maritime technology and more organized methods for conducting international trade, such as joint-stock companies, helped drive changes to economies in Europe and the Americas.

KC-1.2.II.A

Spanish exploration and conquest of the Americas were accompanied and furthered by widespread deadly epidemics that devastated native populations and by the introduction of crops and animals not found in the Americas.

Required Course Content

THEMATIC FOCUS

Social Structures **soc**

Social categories, roles, and practices are created, maintained, challenged, and transformed throughout American history, shaping government policy, economic systems, culture, and the lives of citizens.

LEARNING OBJECTIVE

Unit 1: Learning Objective E

Explain how the growth of the Spanish Empire in North America shaped the development of social and economic structures over time.

HISTORICAL DEVELOPMENTS

KC-1.2.II.B

In the *encomienda* system, Spanish colonial economies marshaled Native American labor to support plantation-based agriculture and extract precious metals and other resources.

KC-1.2.II.C

European traders partnered with some West African groups who practiced slavery to forcibly extract enslaved laborers for the Americas. The Spanish imported enslaved Africans to labor in plantation agriculture and mining.

KC-1.2.II.D

The Spanish developed a caste system that incorporated, and carefully defined the status of, the diverse population of Europeans, Africans, and Native Americans in their empire.

TOPIC 1.6

Cultural Interactions Between Europeans, Native Americans, and Africans

Required Course Content

THEMATIC FOCUS

America in the World **WOR**

Diplomatic, economic, cultural, and military interactions between empires, nations, and peoples shape the development of America and America's increasingly important role in the world.

LEARNING OBJECTIVE

Unit 1: Learning Objective F

Explain how and why European and Native American perspectives of others developed and changed in the period.

HISTORICAL DEVELOPMENTS

KC-1.2.III

In their interactions, Europeans and Native Americans asserted divergent worldviews regarding issues such as religion, gender roles, family, land use, and power.

KC-1.2.III.A

Mutual misunderstandings between Europeans and Native Americans often defined the early years of interaction and trade as each group sought to make sense of the other. Over time, Europeans and Native Americans adopted some useful aspects of each other's culture.

KC-1.2.III.B

As European encroachments on Native Americans' lands and demands on their labor increased, native peoples sought to defend and maintain their political sovereignty, economic prosperity, religious beliefs, and concepts of gender relations through diplomatic negotiations and military resistance.

SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	2.2	Graphic Organizer Ask students to design a graphic organizer, such as a brain web or a comparison table, to gather information about the causes for exploration and the effects of conquest by the Dutch, English, French, and Spanish in North America. Then, in a whole-group discussion, ask students to identify similarities and differences among the European nations and draw conclusions about exploration and colonization.
2	2.4	Create Representations Give students a blank world map and several data sets, such as raw materials, manufactured goods, and enslaved peoples, and have them create a map that identifies the lanes of transatlantic trade, the exchanges, and the size and scope of the British Empire. Ask them to identify trends and patterns and draw conclusions about the Atlantic world.
3	2.6	Jigsaw This strategy can be used to facilitate understanding of the various causes and effects of slavery in the British colonial regions. Assign students to an “expert” group on a colonial region and have them use their textbooks and primary sources to build a picture of slavery there. Then, arrange students into groups where all region “experts” share their information with other students. As a whole group, debrief similarities and differences among the regions with regard to slavery.

Unit Planning Notes

To understand context, your students could examine:

- Change from and/or continuity with preceding historical developments.
- Similarities and/or differences with contemporaneous historical developments in different regions or geographical areas.

Whenever possible, draw upon students’ relevant prior knowledge, and anchor this contextualization lesson in historical source material of varying formats such as visuals, data, or written texts, or conduct an activity that engages students in exploring context.

LEARNING OBJECTIVE

Unit 2: Learning Objective A

Explain the context for the colonization of North America from 1607 to 1754.

PREVIEW: UNIT 2 KEY CONCEPTS

KC-2.1

Europeans developed a variety of colonization and migration patterns, influenced by different imperial goals, cultures, and the varied North American environments where they settled, and they competed with each other and American Indians for resources.

KC-2.1.I

Spanish, French, Dutch, and British colonizers had different economic and imperial goals involving land and labor that shaped the social and political development of their colonies as well as their relationships with native populations.

KC-2.1.II

In the 17th century, early British colonies developed along the Atlantic coast, with regional differences that reflected various environmental, economic, cultural, and demographic factors.

Unit 2: Learning Objective A

Explain the context for the colonization of North America from 1607 to 1754.

PREVIEW: UNIT 2 KEY CONCEPTS

KC-2.1.III

Competition over resources between European rivals and American Indians encouraged industry and trade and led to conflict in the Americas.

KC-2.2

The British colonies participated in political, social, cultural, and economic exchanges with Great Britain that encouraged both stronger bonds with Britain and resistance to Britain's control.

KC-2.2.I

Transatlantic commercial, religious, philosophical, and political exchanges led residents of the British colonies to evolve in their political and cultural attitudes as they became increasingly tied to Britain and one another.

KC-2.2.II

Like other European empires in the Americas that participated in the Atlantic slave trade, the English colonies developed a system of slavery that reflected the specific economic, demographic, and geographic characteristics of those colonies.

European Colonization

Required Course Content

THEMATIC FOCUS**Migration and Settlement** **MIG**

Push and pull factors shape immigration to and migration within America, and the demographic change as a result of these moves shapes the migrants, society, and the environment.

LEARNING OBJECTIVE**Unit 2: Learning Objective B**

Explain how and why various European colonies developed and expanded from 1607 to 1754.

HISTORICAL DEVELOPMENTS**KC-2.1.I.A**

Spanish efforts to extract wealth from the land led them to develop institutions based on subjugating native populations, converting them to Christianity, and incorporating them, along with enslaved and free Africans, into Spanish colonial society.

KC-2.1.I.B

French and Dutch colonial efforts involved relatively few Europeans and relied on trade alliances and intermarriage with American Indians to build economic and diplomatic relationships and acquire furs and other products for export to Europe.

KC-2.1.I.C

English colonization efforts attracted a comparatively large number of male and female British migrants, as well as other European migrants, all of whom sought social mobility, economic prosperity, religious freedom, and improved living conditions. These colonists focused on agriculture and settled on land taken from Native Americans, from whom they lived separately.

Unit 2: Learning Objective C

Explain how and why environmental and other factors shaped the development and expansion of various British colonies that developed and expanded from 1607 to 1754.

HISTORICAL DEVELOPMENTS

KC-2.1.II.A

The Chesapeake and North Carolina colonies grew prosperous exporting tobacco—a labor-intensive product initially cultivated by white, mostly male indentured servants and later by enslaved Africans.

KC-2.1.II.B

The New England colonies, initially settled by Puritans, developed around small towns with family farms and achieved a thriving mixed economy of agriculture and commerce.

KC-2.1.II.C

The middle colonies supported a flourishing export economy based on cereal crops and attracted a broad range of European migrants, leading to societies with greater cultural, ethnic, and religious diversity and tolerance.

KC-2.1.II.D

The colonies of the southern Atlantic coast and the British West Indies used long growing seasons to develop plantation economies based on exporting staple crops. They depended on the labor of enslaved Africans, who often constituted the majority of the population in these areas and developed their own forms of cultural and religious autonomy.

LEARNING OBJECTIVE

Unit 2: Learning Objective C

Explain how and why environmental and other factors shaped the development and expansion of various British colonies that developed and expanded from 1607 to 1754.

HISTORICAL DEVELOPMENTS

KC-2.1.II.E

Distance and Britain's initially lax attention led to the colonies creating self-governing institutions that were unusually democratic for the era. The New England colonies based power in participatory town meetings, which in turn elected members to their colonial legislatures; in the southern colonies, elite planters exercised local authority and also dominated the elected assemblies.

Explain causes and effects of transatlantic trade over time.

HISTORICAL DEVELOPMENTS

KC-2.1.III.A

An Atlantic economy developed in which goods, as well as enslaved Africans and American Indians, were exchanged between Europe, Africa, and the Americas through extensive trade networks. European colonial economies focused on acquiring, producing, and exporting commodities that were valued in Europe and gaining new sources of labor.

KC-2.1.III.B

Continuing trade with Europeans increased the flow of goods in and out of American Indian communities, stimulating cultural and economic changes and spreading epidemic diseases that caused radical demographic shifts.

KC-2.2.I.C

The British government increasingly attempted to incorporate its North American colonies into a coherent, hierarchical, and imperial structure in order to pursue mercantilist economic aims, but conflicts with colonists and American Indians led to erratic enforcement of imperial policies.

HISTORICAL DEVELOPMENTS**KC-2.1.III.C**

Interactions between European rivals and American Indian populations fostered both accommodation and conflict. French, Dutch, British, and Spanish colonies allied with and armed American Indian groups, who frequently sought alliances with Europeans against other American Indian groups.

KC-2.1.III.E

British conflicts with American Indians over land, resources, and political boundaries led to military confrontations, such as Metacom's War (King Philip's War) in New England.

Unit 2: Learning Objective F

Explain the causes and effects of slavery in the various British colonial regions.

HISTORICAL DEVELOPMENTS

KC-2.2.II.A

All the British colonies participated to varying degrees in the Atlantic slave trade due to the abundance of land and a growing European demand for colonial goods, as well as a shortage of indentured servants. Small New England farms used relatively few enslaved laborers, all port cities held significant minorities of enslaved people, and the emerging plantation systems of the Chesapeake and the southern Atlantic coast had large numbers of enslaved workers, while the great majority of enslaved Africans were sent to the West Indies.

LEARNING OBJECTIVE**Unit 2: Learning Objective I**

Explain how and why the different goals and interests of European leaders and colonists affected how they viewed themselves and their relationship with Britain.

HISTORICAL DEVELOPMENTS**KC-2.1.III.D**

The goals and interests of European leaders and colonists at times diverged, leading to a growing mistrust on both sides of the Atlantic. Colonists, especially in British North America, expressed dissatisfaction over issues including territorial settlements, frontier defense, self-rule, and trade.

KC-2.2.I.D

Colonists' resistance to imperial control drew on local experiences of self-government, evolving ideas of liberty, the political thought of the Enlightenment, greater religious independence and diversity, and an ideology critical of perceived corruption in the imperial system.

SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	4.2	Debriefing This topic contains several complex economic, political, and foreign policy issues—such as the tariff, interpretation of the Constitution, and the purchase of foreign land—that teachers can lead students through a debrief on to ensure understanding of these issues, individually and collectively, in relation to the time period.
2	4.5	Self/Peer Revision Students have been practicing writing a historically defensible claim and supporting their argument using specific and relevant evidence. This topic's learning objective—Unit 4: Learning Objective E: <i>Explain the causes and effects of the innovations in technology, agriculture, and commerce over time</i> —can serve as a prompt for students to write thesis statements and outline evidence to be used in support of the claim. Then ask students to select a partner, review the claims and evidence, and provide feedback.
3	4.8	Questioning the Text Assign students to read and analyze Andrew Jackson's first inaugural address and write down any clarification and discussion questions that come to mind while reading the text. Ask students to focus on the main points that Jackson hoped to address in his presidency as outlined in the inaugural address. Form groups around similar questions and ask students to research answers from a source, such as the textbook. Have groups present their findings and lead a discussion about the purpose of inaugural addresses as well as the successes and failures of the Jackson administration.
4	4.9–4.11	Socratic Seminar This activity combines Topics 4.9–4.11. Use the question <i>What were the key ingredients in the creation of an American culture?</i> to initiate a discussion in which students can illustrate their understanding of all the learning objectives and historical developments in these topics.

SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	5.2	Making Connections Write terms or concepts related to this topic's thematic focus, GEO, on index cards, place them in a box, and have students pick a card at random. Give students a few minutes to gather and recall information about the term or concept and then pair students and ask them to find the connection between their terms or concepts. Finally, ask the pairs to write a brief explanation of how the terms or concepts are related.
2	5.7	Debate This topic takes students chronologically up to the breakdown of the Union in 1860–1861. Thinking back over the previous units and topics in this unit, have students debate at what point in time, or by which event, was the Civil War inevitable. Ask students to use evidence and reasoning to support their claims.
3	5.8	Discussion Groups Assign students to groups to discuss the learning objective for this topic, <i>Explain the various factors that contributed to the Union victory in the Civil War</i> , with the view to help them gain new understanding by hearing the views of their classmates. After discussion, ask groups to present their conclusions on the factors and whether or not their groups reached a consensus.
4	5.10, 5.11	Look for a Pattern This activity bridges Topics 5.10 and 5.11. Present students with a series of data in various forms relevant to these topics: population by state, registered voters by state, political representation, land and type of ownership, and any other data relevant to Reconstruction. Have students compare the data presented, identify trends, and draw conclusions about how and why Reconstruction resulted in change and continuity regionally and nationally for African Americans.

Unit Planning Notes

Use the space below to plan your approach to the unit. Consider how you want to pace the unit; which specific historical figures, groups, or events you will use to illustrate the concepts noted in the historical development statements; where you will incorporate writing assignments; and which primary and secondary sources you will use.

TOPIC 5.1

Contextualizing Period 5

Spend a class period helping students understand some contexts for this unit. Considering this unit's key concepts (previewed below), select one or two for which your students will most need context.

To understand context, your students could examine:

- Change from and/or continuity with preceding historical developments.
- Similarities and/or differences with contemporaneous historical developments in different regions or geographical areas.

Whenever possible, draw upon students' relevant prior knowledge, and anchor this contextualization lesson in historical source material of varying formats such as visuals, data, or written texts, or conduct an activity that engages students in exploring context.

KC-5.1.I.B

Advocates of annexing western lands argued that Manifest Destiny and the superiority of American institutions compelled the United States to expand its borders westward to the Pacific Ocean; however, this frequently provoked competition and violent conflict.

KC-5.1.I.D

Westward migration was boosted during and after the Civil War by the passage of new legislation promoting western transportation and economic development.

Southern plantation owners continued to own the majority of the region’s land even after Reconstruction. Formerly enslaved persons sought land ownership but generally fell short of self-sufficiency, as an exploitative and soil-intensive sharecropping system limited blacks’ and poor whites’ access to land in the South.

KC-5.3.II.E

Segregation, violence, Supreme Court decisions, and local political tactics progressively stripped away African American rights, but the 14th and 15th amendments eventually became the basis for court decisions upholding civil rights in the 20th century.

LEARNING OBJECTIVE

Unit 5: Learning Objective M

Compare the relative significance of the effects of the Civil War on American values.

REVIEW: UNIT 5 KEY CONCEPTS

KC-5.2

Intensified by expansion and deepening regional divisions, debates over slavery and other economic, cultural, and political issues led the nation into civil war.

KC-5.2.I

Ideological and economic differences over slavery produced an array of diverging responses from Americans in the North and the South.

KC-5.2.II

Debates over slavery came to dominate political discussion in the 1850s, culminating in the bitter election of 1860 and the secession of Southern states.

KC-5.3

The Union victory in the Civil War and the contested reconstruction of the South settled the issues of slavery and secession, but left unresolved many questions about the power of the federal government and citizenship rights.

KC-5.3.I

The North's greater manpower and industrial resources, the leadership of Abraham Lincoln and others, and the decision to emancipate enslaved people eventually led to the Union military victory over the Confederacy in the devastating Civil War.

KC-5.3.II.i

Reconstruction and the Civil War ended slavery, altered relationships between the states and the federal government, and led to debates over new definitions of citizenship, particularly regarding the rights of African Americans, women, and other minorities.

SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	6.2, 6.3	Think-Pair-Share Topics 6.2 and 6.3 share the same learning objective, <i>Explain the causes and effects of the settlement of the West from 1877 to 1898</i> . Give students practice with the reasoning process of causation by having them use think-pair-share to come up with these causes and effects and then grouping them into like categories, such as transportation or technology.
2	6.4	Close Reading Regional identities are a challenging topic for students in this course. Ask students to read excerpts from Henry Grady speeches, such as his address to the Bay State Club of Boston in 1889, and have them highlight relevant words and passages that support the author's claim. Ask students how the address tackles economic and social issues related to the "New South."
3	6.8	Create Representations Ask students to collect information on the "new" immigrants of the late 19th century. They might research numbers of immigrants, countries of origin, demographics, and settlement locations in the U.S. Ask them to create an infographic for one of the "new" immigrant groups from this time period using widely available free internet resources. Have students share their infographics with the whole group and discuss the factors that affected migration patterns over time.
4	6.13	Debriefing This topic contains several complex economic and political issues, such as tariffs and currency and government regulation, that teachers can lead students through a debrief on to ensure understanding of these issues, individually and collectively, in relation to the time period.

Unit Planning Notes

Use the space below to plan your approach to the unit. Consider how you want to pace the unit; which specific historical figures, groups, or events you will use to illustrate the concepts noted in the historical development statements; where you will incorporate writing assignments; and which primary and secondary sources you will use.

 Contextualization

4.B

Explain how a specific historical development or process is situated within a broader historical context.

TOPIC 6.1

Contextualizing Period 6

Spend a class period helping students understand some contexts for this unit. Considering this unit's key concepts (previewed below), select one or two for which your students will most need context.

To understand context, your students could examine:

- Change from and/or continuity with preceding historical developments.
- Similarities and/or differences with contemporaneous historical developments in different regions or geographical areas.

Whenever possible, draw upon students' relevant prior knowledge, and anchor this contextualization lesson in historical source material of varying formats such as visuals, data, or written texts, or conduct an activity that engages students in exploring context.

SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	8.2	Close Reading This topic, at the onset of Unit 8, offers a plethora of primary source documents that introduce the student to the context of the Cold War in the post-WWII world. Ask students to read excerpts from Winston Churchill's "Iron Curtain" speech, George Kennan's "Long Telegram," or George Marshall's Harvard commencement speech and have them highlight relevant words and passages that support the author's claim. As a whole group, discuss the changing role of the United States in the world.
2	8.4	Look for a Pattern This topic is rich with visual data that students can describe, analyze, and interpret. Ask students to examine complex graphs that address multiple data sets, such as demographic changes (baby boom), private sector growth, federal spending in different areas, technological developments, and economic indicators. Have them identify patterns and trends and come to conclusions about causes of economic growth after World War II.
3	8.8	Guided Discussion This topic offers a lot of fodder for discussion and debate in the classroom. Brainstorming and quickwrite can be used as strategies during a guided discussion to help students understand the causes and effects of the Vietnam War. What debates were settled? What debates remained or emerged as a result of the Vietnam War?
4	8.10	Shared Inquiry Provide students with a selection of primary sources from individuals and groups involved in the civil rights movement. Divide students into groups and ask them to respond to Unit 8: Learning Objectives L and M and present their ideas to the class. Then lead a whole-group discussion comparing the responses of various groups and the actions and responses by the federal government.

Unit Planning Notes

Use the space below to plan your approach to the unit. SAMPLE INSTRUCTIONAL ACTIVITIES

The sample activities on this page are optional and are offered to provide possible ways to incorporate instructional approaches into the classroom. Teachers do not need to use these activities and are free to alter or edit them. The examples below were developed in partnership with teachers from the AP community to share ways that they approach teaching some of the topics in this unit. Please refer to the Instructional Approaches section beginning on p. 217 for more examples of activities and strategies.

Activity	Topic	Sample Activity
1	9.2	Debate This topic in the culminating unit offers students an opportunity to debate and discuss thematic focus PCE, which focuses on the role of the federal government over time. Encourage students to prepare by looking at different time periods and turning points in U.S. history when the role of the federal government changed. Teachers can debrief with students about the extent to which this role changed or continued under Ronald Reagan’s presidency.
2	9.3	Match Claims and Evidence Now that students are near the end of the course and have had many opportunities to practice argumentation, this activity can be used as early preparation for the AP Exam. Ask small groups of students to write claims and supporting evidence statements on individual note cards based on the causes and effects of the end of the Cold War and the Cold War’s legacy. Have groups trade claims and evidence and revise or modify the claims (if necessary), match the claims and evidence, and write statements explaining why the evidence supports the claim.
3	9.5	Making Connections Write concepts related to the course theme of Migration and Settlement (MIG) and related concepts on index cards, place them in a box, and have students pick a card at random. Incorporate concepts from Topic 9.5 as well as from previous topics that addressed immigration and migration. Give students a few minutes to gather and recall information about the theme or concept and then pair students and ask them to find the connection between the theme or concepts. Finally, ask the pairs to write a brief explanation of how the concepts are related.

Unit Planning Notes

Use the space below to plan your approach to the unit. Consider how you want to pace the unit; which specific historical figures, groups, or events you will use to illustrate the concepts noted in the historical development statements; where you will incorporate writing assignments; and which primary and secondary sources you will use.

AP U.S. HISTORY

Instructional Approaches

Selecting and Using Course Materials

Using a wide array of historical source material helps students become proficient with the historical thinking skills and develop a conceptual understanding of U.S. history. In addition to using a college-level textbook that will provide required course content, students should regularly examine primary source material in different and varied forms as well as other types of historical scholarship. Rich, diverse source material provides more flexibility in designing learning activities that develop the habits of historical thinking that are essential for student success in the course.

Textbooks

The AP U.S. History course requires the use of a college-level textbook that includes discussion of historical developments and processes from 1491 into the 21st century in a way that encourages conceptual understanding. While nearly all college-level U.S. history textbooks will address the various themes of U.S. history, they may cover these thematic approaches differently. It will be important to identify other types of secondary sources and supplement the textbook accordingly. Ideally, the textbook selected will use the thematic approaches as threads to make connections across different time periods.

AP Central has an [example textbook list](#) of college-level textbooks that meet AP Course Audit resource requirements. Additionally, the AP U.S. History Teacher Community on AP Central provides reviews of recently published texts to help teachers determine their appropriateness for the AP course.

Primary Sources

Students will find it useful to analyze primary source material regularly to deepen their understanding of the learning objectives and develop the required historical thinking skills. While publishers are increasingly including primary source material within the textbook, students should be introduced to a wide variety of source material so that they can analyze historical evidence from diverse sources. These sources should include written documents as well as images, such as photographs, cartoons, and works of art. The ancillary materials and website sources that accompany most of the recently published textbooks may have high-quality primary source documents, artwork, charts, and other sources of data that are linked to the topics and themes addressed in the textbook. If the textbook used does not provide ample primary sources, or the sources are too brief, teachers may decide to supplement their course with document readers that provide lengthier selections or online compilations of primary sources related to particular topic areas.

Secondary Sources

Student success in the course also depends on exposure to and analysis of multiple secondary sources. Secondary sources include noncontemporary accounts of the past written by historians or scholars of other related disciplines, such as economists, sociologists, political commentators, or art historians, as well as data sets, charts, and maps. Secondary sources of all types can provide a broader and more substantive perspective on topics addressed by a textbook. Additionally, secondary sources can be helpful in supplementing textbooks with older publication dates.

It is especially important that students practice analyzing and comparing historians' interpretations of events. Students should have opportunities to compare a primary source with a secondary source or compare the views represented by two different secondary sources. This need can often be met by source collections that provide both primary and secondary source material, or through ancillary resource material offered by textbook publishers. When finding resources to use with students, teachers may consider a variety of sources that vary in complexity, building toward publications by practicing historians, university presses, or scholarly journals.

School library media specialists can also help identify databases that contain a variety of useful source material—both primary and secondary. Many schools

already subscribe to databases, such as ABC-CLIO, JSTOR, or Gale, that may augment the materials found in texts or document readers. Library media specialists can assist in developing course-specific LibGuides that give students easy access to the source material identified by the teacher.

Teaching with the Founding Documents

Students who engage in close reading and analysis of the ideas and debates of the founding documents gain historical understanding and capacity to trace the influence of these ideas throughout the course. For this reason, teachers may use these documents in an in-depth examination of the themes of the course and ideas of freedom and democracy. Teachers who are especially interested in using a cross-disciplinary approach, such as American studies, or teaching this course in conjunction with a course like AP U.S. Government and Politics, may find this approach especially helpful.

Ultimately, a command of the ideas and language of the founding documents and their influence will not only help students succeed on the AP Exam and in college but also will open up opportunities for them to participate more deeply in civic life in the United States and globally.

Instructional Strategies

The AP U.S. History course framework outlines the concepts and skills students must master in order to be successful on the AP Exam. To address those concepts and skills effectively, it helps to incorporate a variety of instructional approaches into daily lessons and activities. The following table presents strategies that can help students apply their understanding of course concepts.

Strategy	Definition	Purpose	Example
<i>Close Reading</i>	Students read, reread, and analyze small chunks of text word for word, sentence by sentence, and line by line.	Develops comprehensive understanding of a text.	When students are reading foundational documents, such as the Declaration of Independence, have them highlight relevant words and passages that support the author's claim. Ask students to connect the grievances listed in the third section of the Declaration to specific abuses enacted by Parliament and the king.
<i>Create Representations</i>	Students create tables, graphs, or other infographics to interpret text or data.	Helps students organize information using multiple ways to present data.	Give students a set of data, such as voting patterns by race and gender, and have them create a graph that best shows the data and the trends.
<i>Critique Reasoning</i>	Through collaborative discussion, students critique the arguments of others, questioning the author's perspective, evidence presented, and reasoning behind the argument.	Helps students learn from others as they make connections between concepts and learn to support their arguments with evidence and reasoning that make sense to peers.	Have students critique Abraham Lincoln's arguments for reunification in his first inaugural address. Have students examine Lincoln's perspective and the evidence and reasoning he uses to support this position.
<i>Debate</i>	Students present an informal or formal argument that defends a claim with reasons, while others defend different claims about the same topic or issue. The goal is to debate ideas without attacking the people who defend those ideas.	Gives students an opportunity to collect and orally present evidence supporting the affirmative and negative arguments of a proposition or issue.	Have students debate which U.S. president was the most significant, using evidence and reasoning to support their claims.

Strategy	Definition	Purpose	Example
Debriefing	Students participate in a facilitated discussion that leads to consensus understanding or helps them identify the key conclusions or takeaways.	Helps students solidify and deepen understanding of content.	For complex issues, such as financial panics, lead students in a debrief to ensure their understanding.
Discussion Groups	Students engage in an interactive, small-group discussion, often with an assigned role (e.g., questioner, summarizer, facilitator, evidence keeper) to consider a topic, text, question, etc.	Helps students gain new understanding of or insight into a text or issue by listening to multiple perspectives.	Assign students to groups to discuss a learning objective, such as <i>Explain how and why a new national culture developed from 1800 to 1848</i> , with the view to help them gain new understanding by hearing the views of their classmates.
Fishbowl	Some students form an inner circle and model appropriate discussion techniques while an outer circle of students listens, responds, and evaluates.	Provides students with an opportunity to engage in a formal discussion and to experience roles both as participant and active listener; students also have the responsibility of supporting their opinions and responses using specific textual evidence.	Have students discuss the arguments presented in American Revolution-era documents and how they responded to British actions and policies leading up to the American Revolution.
Graphic Organizer	Students use a visual representation for the organization of information.	Builds comprehension and facilitates discussion by representing information in visual form.	Ask students to use a graphic organizer to compare political, economic, religious, social, intellectual, and technological ideas. Make sure students use any organizer thoughtfully and are not simply filling in the blanks.
Guided Discussion	A guided discussion is an umbrella strategy that allows for the use of different techniques as you guide students through the lesson.	Helps students see the big picture and builds their confidence when dealing with difficult content and/or new skills.	Use brainstorming and quickwrite as strategies during a guided discussion in which you help students understand the motivations and patterns of colonization in North America by European countries and ultimately why the British “won.”

Strategy	Definition	Purpose	Example
<i>Jigsaw</i>	Each student in a group reads a different text or different passage from a single text, taking on the role of “expert” on what was read. Students share the information from that reading with students from other groups and then return to their original groups to share their new knowledge.	Helps students summarize and present information to others in a way that facilitates an understanding of a text (or multiple texts) or issue without having each student read the text in its entirety; by teaching others, they become experts.	Use this strategy to facilitate understanding of the various objectives and accomplishments of the Progressive movement. Have students read and analyze primary and secondary sources related to political corruption, social injustice, and economic inequality.
<i>Look for a Pattern</i>	Students evaluate data or create visual representations to find a trend.	Helps students identify patterns that may be used to draw conclusions.	Using a complex graph (with at least two data sets), such as one showing agricultural production in the late 19th century, have students compare acres under cultivation and crop yield per acre to find a trend and draw a conclusion.
<i>Making Connections</i>	Students are given a concept, term, or document and asked to write what they know about it. Then students are paired and asked to determine, describe, and then explain the connection between the two concepts.	Reinforces the fact that concepts are often connected and provides the opportunity for students to make and explain connections between and among these concepts.	Write concepts related to one of the course themes on cards, place them in a box, and have students pick a concept at random. Give students a few minutes to gather and recall information about the term and then pair students and ask them to find the connection between their concepts. Finally, ask the pairs to write a brief explanation of how the concepts are related.
<i>Match Claims and Evidence</i>	Students are given sample claims (most of which can be improved on) to evaluate and revise. Then students match their revised claims with pieces of evidence that can be used to support the claims. Once matched, students write a statement explaining how and why the evidence supports the claim.	Provides opportunities for students to edit existing claims and match those claims with existing evidence in preparation for writing their own argumentative essays.	In early stages of practicing argumentation, ask small groups of students to write claims and supporting evidence statements based on a prompt. Have groups trade claims and evidence and revise or modify the claims (if necessary), match the claims and evidence, and write statements explaining why the evidence supports the claim.

Strategy	Definition	Purpose	Example
Questioning the Text	Developing literal, interpretive, and universal questions about a text while reading it.	Allows students to engage more actively with texts, read with greater purpose and focus, and ultimately answer questions to gain greater insight into the text.	Ask students to read and analyze propaganda posters from either World War I or II and write down any clarification and discussion questions that come to mind while reading the text. Form groups around similar questions and ask students to research answers from a source, such as the textbook. Have groups present their findings and lead a discussion about propaganda, mobilization, and preparedness.
Quickwrite	Students write for a short, specific amount of time about a designated topic.	Helps students generate ideas in a short time.	As preparation for the free-response questions, use Unit 5: Learning Objective B, <i>Explain the causes and effects of westward expansion from 1844 to 1877</i> , to have students write claims and explain evidence that supports their claims for various topics.
Self/Peer Revision	Students work alone or with a partner to examine a piece of writing for accuracy and clarity.	Provides students with an opportunity for editing a written text to ensure correctness of identified components.	Have students perform self- and peer revisions of their practice argument essays so that they have the opportunity to review their practice claims, supporting evidence, sourcing, and analysis and reasoning.

Strategy	Definition	Purpose	Example
<i>Shared Inquiry</i>	Students actively read a provocative text, asking interpretive questions (questions for which there are no predetermined right answers) before and during reading. After reading the text, students engage with their peers to make meaning from the text, offer different answers to the questions, and debate one another, supporting their positions with specific evidence from the text.	Allows a teacher to lead a deep discussion about a text and encourages diverse ideas to emerge as students think deeply and share interpretations.	Provide a selection of primary sources from individuals involved in Latino, American Indian, and Asian American movements. In groups, ask students to formulate responses to Unit 8: Learning Objective L, <i>Explain how and why various groups responded to calls for the expansion of civil rights from 1960 to 1980</i> , and present their ideas to the class. Then lead a whole-group discussion comparing these movements to the African American movement for civil rights.
<i>Socratic Seminar</i>	A focused discussion tied to a topic, question, or selected text in which students ask questions of one another. The questions initiate a conversation that continues with a series of responses and additional questions.	Helps students arrive at a new understanding by asking questions that clarify; challenging assumptions; probing perspective and point of view; questioning facts, reasons, and evidence; or examining implications and outcomes.	Use a question such as <i>How and why was the United States a world leader after World War II?</i> to initiate a discussion in which students can illustrate their understanding of the learning objectives and historical development statements.
<i>Think-Pair-Share</i>	Students think through a question or issue alone, pair with a partner to share ideas, and then share results with the class.	Enables the development of initial ideas that are then tested with a partner in preparation for revising ideas and sharing them with a larger group.	To practice comparing the responses by the executive, legislative, and judicial branches to the calls for expansion of civil rights, have students use think-pair-share to come up with similarities, differences, and relevance to the historical situation.

Developing Historical Thinking Skills

Throughout the AP U.S. History course, students will develop skills that are fundamental to the study of history. Since these historical thinking skills represent the complex skills that adept historians demonstrate, students will benefit from multiple opportunities to develop them in a scaffolded manner.

The historical thinking skills and reasoning processes used in the course framework help students begin to understand and create historical arguments in a process similar to that used by historians. This process begins with a close analysis of historical sources and reaches its conclusion when evidence, drawn from historical sources, is used effectively to support an argument about the past.

The tables on the pages that follow look at each of the skills and provide examples of tasks or questions for each skill, along with instructional notes and strategies for integrating that skill into the course.

Historical Thinking Skill 1: Identify and explain historical developments and processes

Historical knowledge is gained from a variety of formats: knowledge transfer from the teacher, reading textbooks, analyzing primary and secondary sources, and from other media. In order to perform historical analysis and argumentation, students need to establish a depth of knowledge about historical events, processes, and people and their actions. This skill allows students to gain that empirical knowledge that they can then apply using more sophisticated skills.

Skill	Tasks/Questions	Sample Activity	Instructional Strategies
1.A <i>Identify a historical concept, development, or process.</i>	<ul style="list-style-type: none"> Identify the characteristics and traits of a concept, development, or process. What does the historical evidence tell you about a concept, development, or process? 	Ask students to read the "Declaration of Sentiments" and identify the sentiments expressed by the authors.	<ul style="list-style-type: none"> Quickwrite Think-Pair-Share
1.B <i>Explain a historical concept, development, or process.</i>	<ul style="list-style-type: none"> Using specific historical evidence, explain how and why a historical concept, development, or process emerged. Begin to think about causation and patterns of continuity and change over time. 	Ask students to explain through writing how the Seneca Falls Convention came to be.	<ul style="list-style-type: none"> Quickwrite Graphic Organizer

Historical Thinking Skill 2: Analyze sourcing and situation of primary and secondary sources

Historians use primary sources and the arguments of other historians (secondary sources) as the foundation for creating an understanding about historical events—in short, a historical argument. Sources need to be closely evaluated so that they can be used properly to support, refute, or even modify an argument. By using these skills, students will build an understanding of source analysis that they can later use in developing their own historical arguments. Good analysis requires a critical evaluation of the source's limitations.

Skill	Tasks/Questions	Sample Activity	Instructional Strategies
2.A <i>Identify a source's point of view, purpose, historical situation, and/or audience.</i>	<ul style="list-style-type: none"> Identify the author. Identify his or her perspective. Identify the purpose. Identify the intended audience. Place the source within its historical situation. 	Lead students on a guided reading of Booker T. Washington's "Atlanta Compromise" speech. 2.B <i>Explain the point of view, purpose, historical situation, and/or audience of a source.</i>	<ul style="list-style-type: none"> Explain the many different variables that impact a source's: <ul style="list-style-type: none"> Content Tone Interpretation Audience Purpose 	Ask students to examine the factors that led Booker T. Washington to respond to Jim Crow the way he did in the time period of the late 19th and early 20th centuries?	<ul style="list-style-type: none"> Socratic Seminar
2.C <i>Explain the significance of a source's point of view, purpose, historical situation, and/or audience, including how these might limit the use(s) of a source.</i>	<ul style="list-style-type: none"> Why does the source's point of view, purpose, historical situation, and audience matter? What does the source not tell you? How do the tone and audience of a source affect its value to historians? How could historians use this information in their analysis of evidence? 	Identify the justifications used by James K. Polk when he asked Congress for a declaration of war against Mexico in 1846. Have students explain how the purpose, historical situation, and/or audience might limit the use(s) of this source.	<ul style="list-style-type: none"> Discussion Groups Think-Pair-Share Quickwrite

Historical Thinking Skill 3: Analyze arguments in primary and secondary sources

Because historians rely on primary and secondary sources to serve as evidence to support their claims, they need to closely analyze these sources. This analysis includes investigating what the source does and does not communicate, determining the argument established by a source, and identifying the evidence the author uses to support that argument.

Skill	Tasks/Questions	Sample Activity	Instructional Strategies
3.A <i>Identify and describe a claim and/or argument in a text-based or non-text-based source.</i>	<ul style="list-style-type: none"> What is the author trying to prove in the source? 	Ask students to identify Benjamin Franklin's argument in his "Join or Die" political cartoon.	<ul style="list-style-type: none"> Debriefing
3.B <i>Identify the evidence used in a source to support an argument.</i>	<ul style="list-style-type: none"> What is the source's argument? What specific examples does the author use to support the argument? 	Ask students to identify the justifications that William McKinley presents in his April 11, 1898, message to Congress requesting a declaration of war against Spain.	<ul style="list-style-type: none"> Critique Reasoning
3.C <i>Compare the arguments or main ideas of two sources.</i>	<ul style="list-style-type: none"> Identify the argument or main idea in each source. What are the similarities between the arguments or main ideas in each source? What are the differences between the arguments or main ideas in each source? 	Using excerpted transcripts of majority and dissenting opinions, ask students to compare the justices' interpretations of the 14th Amendment in the case <i>Plessy v. Ferguson</i> (1896).	<ul style="list-style-type: none"> Fishbowl
3.D <i>Explain how claims or evidence support, modify, or refute a source's argument.</i>	<ul style="list-style-type: none"> Explain the source's claim. Explain the evidence presented in the source. Explain how outside evidence supports the claims in the source. Explain how outside evidence contradicts the claims in the source. 	Ask students to explain the arguments made in the Declaration of Independence. What outside evidence supports and refutes the claims made?	<ul style="list-style-type: none"> Close Reading

Historical Thinking Skill 4: Analyze the context of historical events, developments, or processes

Historical events, developments, and processes do not happen in a vacuum. They cannot be understood without proper examination within the relevant context. While students are often taught to focus on comparison, causality, and patterns of continuity and change over time as ways to look at these events, historical context also plays a part. Analyzing historical events using context helps students see the big picture and make the connections they will need to make when developing thoughtful arguments. These skills guide students through the process of contextual analysis.

Skill	Tasks/Questions	Sample Activity	Instructional Strategies
4.A <i>Identify and describe a historical context for a specific historical development or process.</i>	<ul style="list-style-type: none"> What events led up to the one being studied? What else is happening in North America or the world at this time? 	The United States acquired lands mainly in the Western Hemisphere. As you move into studying Unit 6, have students relate the various motivations for the acquisition of those lands to broader economic and political developments.	<ul style="list-style-type: none"> Debriefing Discussion Groups
4.B <i>Explain how a specific historical development or process is situated within a broader historical context.</i>	<ul style="list-style-type: none"> What does the source tell us about the time in which it was created? Use historical reasoning to explain how an event relates to a broader process. How does the relationship affect the event being studied? Examine the evidence through the lens of another historical event or development. How can this evidence be used to explain other, related historical events? 	Have students examine Washington's Proclamation of Neutrality in the context of the American Revolution and the U.S. Constitution. Extend the discussion to include American foreign policy of the 1790s under Washington. Challenge students to look at events and processes both inside and outside of the United States during this exercise.	<ul style="list-style-type: none"> Close Reading Socratic Seminar

Historical Thinking Skill 5: Using historical reasoning processes (comparison, causation, continuity and change), analyze patterns and connections between and among historical developments and processes

Analyzing patterns and making connections is the bridge between all of the previous historical thinking skills. This skill pulls everything together and allows students to connect all concepts. Whether they are using sources or their own historical knowledge, students will use the historical reasoning processes to identify and explain patterns and connections between historical events and developments.

Skill	Tasks/Questions	Sample Activity	Instructional Strategies
5.A <i>Identify patterns among or connections between historical developments and processes.</i>	<ul style="list-style-type: none"> What historical developments or processes are described in this source? What are the causes of this development or process? What are the effects of this development or process? Where does the development or process fit into a pattern of continuity or change over time? What are the similarities and differences between this development or process and another? What does the data in a non-text-based source represent? What trends and patterns can you identify from non-text-based data? 	<p>Have students examine a series of visual sources from the post-War of 1812 time period in order to identify and describe a pattern or connection between the emergent nationalism and single-party politics. Use these sources to assess the validity of the label “Era of Good Feelings.”</p> <p>Have students organize their findings on a timeline or graphic organizer (concept web).</p>	<ul style="list-style-type: none"> Debriefing Look for a Pattern Graphic Organizer
5.B <i>Explain how a historical development or process relates to another historical development or process.</i>	<ul style="list-style-type: none"> Which historical developments are illustrated in the historical evidence? How or why are the causes of this development or process related to another historical development or process? How or why are the effects of this development or process related to another historical development or process? How or why does the development or process fit into a pattern of continuity or change over time? How or why are developments and processes similar and/or different? 	<p>Have students write a practice response to a long essay question explaining the extent to which the mobilization for World War II was responsible for social and civil rights movements in the second half of the 20th century.</p> <p>As part of their response, students should explain how World War II mobilization relates to social and civil rights movements, using causation or patterns of continuity and change over time.</p>	<ul style="list-style-type: none"> Quickwrite Self/Peer Revision

Historical Thinking Skill 6: Develop an argument

Writing claims is often the first argumentation skill that students practice, but claims are difficult to develop without prompting. Giving students prompts to work with can help them as they learn this skill. The prompt should establish parameters that force students to take a position, either by choosing one of two presented alternatives or by assessing the extent to which a given proposition or scenario is valid.

In order to develop a historically defensible claim, students need to know what evidence is available to support that claim. They can practice writing claims using just their knowledge as evidence, as they will in the long essay question. They should also write claims using documents, to practice both evidence and sourcing (a few at first, then build quantity as students gain skills and confidence), as they will in the document-based question.

The reasoning processes, discussed in more depth starting on page 236, will help students develop historical reasoning needed to appropriately connect their evidence to their claims.

There is no simple path to teaching students to develop complex arguments. The tasks/questions and the sample activities in the table below can serve as a roadmap. However, students will also need a mastery of the course content, source analysis, a highly developed understanding of historical context, and the ability to make connections between and among events to demonstrate this skill. In short, it is the culminating skill for an AP U.S. History student.

Skill	Tasks/Questions	Sample Activity	Instructional Strategies
6.A <i>Make a historically defensible claim.</i>	<ul style="list-style-type: none"> What do you know about the development or processes established in the prompt? What are your options regarding positions to take? What historical reasoning process is indicated (or best fits the structure of the essay you plan to write)? Based on the prompt and the evidence (either provided or from your own knowledge), which position will you take? State in a few words how you will prove your claim ("because" statement). 	<p>Provide students with a practice writing prompt, such as <i>Evaluate the extent to which Manifest Destiny was motivated by social or economic reasons.</i></p> <p>Have students break down the prompt into potential positions (Manifest Destiny was socially motivated or Manifest Destiny was economically motivated, or was motivated by both).</p> <p>Have them identify a historical reasoning process that best fits the essay that they would go on to develop (such as comparison or causation).</p> <p>Ask them to think of evidence that would support all of the identified positions. Then ask them to write a defensible claim that establishes a line of reasoning by stating their chosen position and providing a roadmap for how they are going to prove their claim ("because" statement).</p>	<ul style="list-style-type: none"> Self/Peer Revision

Developing the Reasoning Processes

Reasoning processes describe the cognitive operations that students will be required to apply when engaging with the historical thinking skills on the AP Exam. The reasoning processes ultimately represent ways in which historians think.

Student responses on the AP Exam should reflect their ability to apply a reasoning process that aligns to the intent of the question. For example, if students are asked to explain how and why European and Native American perspectives of others developed

and changed in the period 1450–1607, successful student responses will be organized around the reasoning process of comparison. In many cases, guiding students toward a better alignment between the reasoning process and the task unlocks their understanding and helps them improve their writing.

The table that follows provides suggestions for approaching the reasoning processes in the AP U.S. History course.

Reasoning Process	Key Tasks	Examples	Sample Instructional Strategies
Comparison	1.i: Describe similarities and/or differences between different historical developments or processes.	Describe the similarities and differences between the political parties during the Gilded Age. (Topic 6.13)	▪ Debriefing

Section I

PART A: MULTIPLE-CHOICE

The first part of Section I of the AP U.S. History Exam includes 55 multiple-choice questions typically appearing in sets of three to four questions, each with one or more stimuli, including primary texts, secondary texts, images (artwork, photos, posters, cartoons, etc.), charts or other quantitative data, and maps. Additionally, there will be at least one set of paired text-based stimuli (in either the multiple-choice questions or one of the short-answer questions). Multiple-choice questions require analysis of the provided stimulus sources and of the historical developments and processes described in the sources.

PART B: SHORT-ANSWER

The second part of Section I of the AP Exam also includes three required short-answer questions. Short-answer question 1 is required and includes a secondary source stimulus. The topic of the question includes historical developments or processes between the years 1754 and 1980.

Short-answer question 2 is required and includes a primary source stimulus. The topic of the question includes historical developments or processes between the years 1754 and 1980.

Students may select short-answer question 3 or 4, neither of which includes a stimulus. Short-answer question 3 focuses on historical developments or processes between the years 1491 and 1877. Short-answer question 4 focuses on historical developments or processes between the years 1865 and 2001.

Section II

DOCUMENT-BASED QUESTION

The document-based question presents students with seven documents offering various perspectives on a historical development or process. The question requires students to do the following:

- Respond to the prompt with a historically defensible thesis or claim that establishes a line of reasoning.
- Describe a broader historical context relevant to the prompt.
- Use the provided documents to support an argument in response to the prompt.
- Use historical evidence beyond the documents relevant to an argument about the prompt.
- For at least three documents, explain how or why the document's point of view, purpose, historical situation, and/or audience is relevant to an argument.
- Demonstrate a complex understanding of the historical development that is the focus of the prompt, using evidence to corroborate, qualify, or modify an argument that addresses the question.

The topic of the document-based question will include historical developments or processes between the years 1754 and 1980.

LONG ESSAY QUESTION

The long essay question requires students to do the following:

- Respond to the prompt with a historically defensible thesis or claim that establishes a line of reasoning.
- Describe a broader historical context relevant to the prompt.
- Support an argument in response to the prompt using specific and relevant examples of evidence.
- Demonstrate a complex understanding of the historical development that is the focus of the prompt, using evidence to corroborate, qualify, or modify an argument that addresses the question.

Students must select one of three long essay questions. Each question focuses on the same reasoning process, but historical developments and processes in different time periods. The first option focuses on historical developments or processes between 1491 and 1800, the second on historical developments or processes between 1800 and 1898, and the third on historical developments or processes between 1890 and 2001.

How Student Learning Is Assessed on the AP Exam

The six historical thinking skills are assessed on the AP Exam as detailed below.

Historical Thinking Skill	Multiple-Choice Questions	Free-Response Questions
Skill 1: Developments and Processes	Multiple-choice questions assess students' ability to identify and explain historical developments and processes.	The short-answer questions, document-based question, and long essay question assess students' ability to identify and explain historical developments and processes.
Skill 2: Sourcing and Situation	<p>Multiple-choice questions assess students' ability to analyze sourcing and situation of primary and secondary sources.</p> <p>Students will need to identify and explain the point of view, purpose, historical situation, and/or audience of a source including its significance. Additionally, students will need to explain how the sourcing and situation might limit the use(s) of a source.</p>	Short-answer questions 1 and/or 2 assess students' ability to analyze the sourcing or situation in primary or secondary sources. The document-based question assesses students' ability to analyze how the point of view, purpose, historical situation, and/or audience is relevant to an argument.
Skill 3: Claims and Evidence in Sources	Multiple-choice questions assess students' ability to analyze arguments in primary and secondary sources, including identifying and describing claims and evidence used. Additionally, students will need to compare arguments and explain how claims or evidence support, modify, or refute a source's argument.	Short-answer questions 1 and/or 2 assess students' ability to analyze arguments in primary or secondary sources. The document-based question also provides opportunities for students to analyze arguments in primary sources.
Skill 4: Contextualization	Multiple-choice questions assess students' ability to identify and describe a historical context for a specific historical development or process as well as explain how a specific development or process is situated within a broader historical context.	The document-based question and long essay question assess students' ability to describe a broader historical context relevant to the topic of the question. One or two of the short-answer questions may also assess this skill.
Skill 5: Making Connections	Multiple-choice questions assess students' ability to analyze patterns and connections between and among historical developments and processes, using historical reasoning processes (e.g., comparison, causation, continuity and change).	The document-based question, long essay question, and one or more of the short-answer questions all assess this skill.
Skill 6: Argumentation	No multiple-choice questions explicitly assess the argumentation skill.	The document-based question and long essay question assess argumentation.

Task Verbs Used in the Free-Response Questions

The following task verbs are commonly used in the free-response questions:

Compare: Provide a description or explanation of similarities and/or differences.

Describe: Provide the relevant characteristics of a specified topic.

Evaluate: Judge or determine the significance or importance of information, or the quality or accuracy of a claim.

Explain: Provide information about how or why a relationship, pattern, position, situation, or outcome occurs, using evidence and/or reasoning. "Explain how" typically requires analyzing the relationship, process, pattern, position, situation, or outcome, whereas "explain why" typically requires analysis of motivations or reasons for the relationship, process, pattern, position, situation, or outcome.

Identify: Indicate or provide information about a specified topic, without elaboration or explanation.

Support an argument: Provide specific examples and explain how they support a claim.

Sample Exam Questions

The sample exam questions that follow illustrate the relationship between the course framework and the AP U.S. History Exam and serve as examples of the types of questions that appear on the exam. After the sample questions is a table that shows to which skill and learning objective(s) each question relates. The table also provides the answers to the multiple-choice questions.

PART B: SHORT-ANSWER QUESTION WITH SECONDARY SOURCE

The following is an example of short-answer question 1 found on the AP Exam.

Note that on the actual AP Exam, students will answer three short-answer questions.

1. “Of all the amusements that bedazzled the single working woman, dancing proved to be her greatest passion. After a long day laboring in a factory or shop, young women dressed themselves in their fanciest finery, put on their dancing shoes, and hurried out to the neighborhood hall, ballroom, or saloon equipped with a dance floor. . . . By the 1910s, over five hundred public dance halls opened their doors each evening throughout greater New York. . . .

“New ballrooms and dance palaces offered a novel kind of social space for their female patrons, enhancing and legitimizing their participation in a public social life. The commercial culture of the dance halls meshed with that of working-class youth in a symbiotic relationship, reinforcing emergent values and ‘modern’ attitudes.”

Kathy Peiss, historian, *Cheap Amusements: Working Women and Leisure in Turn-of-the-Century New York*, 1986

“As strikers thronged the public streets of New York City [in 1909], demonstrated in parades and mass meetings, and picketed in front of factories, they challenged established assumptions about the identity and appearance of political actors and access to public space. These working-class, largely immigrant women comprised a subordinated group long denied an active voice in recognized political forums. By occupying the arena of labor politics through a mass strike, they demanded a voice.”

Nan Enstad, historian, *Ladies of Labor, Girls of Adventure: Working Women, Popular Culture, and Labor Politics at the Turn of the Twentieth Century*, 1999

Using the excerpts above, answer (a), (b), and (c).

- (A) Briefly describe ONE important difference between Peiss’ and Enstad’s historical interpretations of women’s emergence in the public sphere at the turn of the twentieth century.
- (B) Briefly explain how ONE specific historical event, development, or circumstance from the period 1880–1929 that is not specifically mentioned in the excerpts could be used to support Peiss’ argument.
- (C) Briefly explain how ONE specific historical event, development, or circumstance from the period 1880–1929 that is not specifically mentioned in the excerpts could be used to support Enstad’s argument.

Section II

The following are examples of the kinds of free-response questions found on the exam. Note that on the actual AP Exam, students will answer one document-based question and will select one of the three long essay questions to answer.

DOCUMENT-BASED QUESTION

1. Evaluate the relative importance of different causes for the expanding role of the United States in the world in the period from 1865 to 1910.

In your response you should do the following:

- Respond to the prompt with a historically defensible thesis or claim that establishes a line of reasoning.
- Describe a broader historical context relevant to the prompt.
- Support an argument in response to the prompt using at least six documents.
- Use at least one additional piece of specific historical evidence (beyond that found in the documents) relevant to an argument about the prompt.
- For at least three documents, explain how or why the document's point of view, purpose, historical situation, and/or audience is relevant to an argument.
- Use evidence to corroborate, qualify, or modify an argument that addresses the prompt.

In consideration of the cession aforesaid, the United States agree to pay . . . seven million two hundred thousand dollars in gold.

Document 2

Source: Josiah Strong, *Our Country: Its Possible Future and Its Present Crisis*, 1885.

It seems to me that God, with infinite wisdom and skill, is training the Anglo-Saxon race for an hour sure to come in the world's future. Heretofore there has always been in the history of the world a comparatively unoccupied land westward, into which the crowded countries of the East have poured their surplus populations. But the widening waves of migration, which millenniums ago rolled east and west from the valley of the Euphrates, meet today on our Pacific coast. There are no more new worlds. The unoccupied arable lands of the earth are limited, and will soon be taken. The time is coming when the pressure of population on the means of subsistence will be felt here as it is now felt in Europe and Asia. Then will the world enter upon a new stage of its history—the *final competition of races, for which the Anglo-Saxon is being schooled*. . . . Then this race of unequaled energy, with all the majesty of numbers and the might of wealth behind it—the representative, let us hope, of the largest liberty, the purest Christianity, the highest civilization—having developed peculiarly aggressive traits calculated to impress its institutions upon mankind, will spread itself over the earth.

Document 3

Source: Captain Alfred Thayer Mahan, *The Interest of America in Sea Power, Present and Future*, 1897.

To affirm the importance of distant markets, and the relation to them of our own immense powers of production, implies logically the recognition of the link that joins the products and the markets,—that is, the carrying trade; the three together constituting that chain of maritime power to which Great Britain owes her wealth and greatness. Further, is it too much to say that, as two of these links, the shipping and the markets, are exterior to our own borders, the acknowledgment of them carries with it a view of the relations of the United States to the world radically distinct from the simple idea of self-sufficingness? . . . There will dawn the realization of America's unique position, facing the older worlds of the East and West, her shores washed by the oceans which touch the one or the other, but which are common to her alone.

Despite a certain great original superiority conferred by our geographical nearness and immense resources,—due, in other words, to our natural advantages, and not to our intelligent preparations,—the United States is woefully unready, not only in fact but in purpose, to assert in the Caribbean and Central America a weight of influence proportioned to the extent of her interests. We have not the navy, and, what is worse, we are not willing to have the navy, that will weigh seriously in any disputes with those nations whose interests will conflict there with our own. We have not, and we are not anxious to provide, the defence of the seaboard which will leave the navy free for its work at sea. We have not, but many other powers have, positions, either within or on the borders of the Caribbean.

To the Representatives of the United States at Berlin, London, Paris, Rome, St. Petersburg, and Tokyo Washington, July 3, 1900

In this critical posture of affairs in China it is deemed appropriate to define the attitude of the United States as far as present circumstances permit this to be done. We adhere to the policy . . . of peace with the Chinese nation, of furtherance of lawful commerce, and of protection of lives and property of our citizens by all means guaranteed under extraterritorial treaty rights and by the law of nations. . . . We regard the condition at Pekin[g] as one of virtual anarchy. . . . The purpose of the President is . . . to act concurrently with the other powers; first, in opening up communication with Pekin[g] and rescuing the American officials, missionaries, and other Americans who are in danger; secondly, in affording all possible protection everywhere in China to American life and property; thirdly, in guarding and protecting all legitimate American interests; and fourthly, in aiding to prevent a spread of the disorders to the other provinces of the Empire and a recurrence of such disasters. . . . Source: President Theodore Roosevelt, Fourth Annual Message to Congress, December 6, 1904.

There are kinds of peace which are highly undesirable, which are in the long run as destructive as any war. Tyrants and oppressors have many times made a wilderness and called it peace. Many times peoples who were slothful or timid or shortsighted, who had been enervated by ease or by luxury, or misled by false teachings, have shrunk in unmanly fashion from doing duty that was stern and that needed self-sacrifice, and have sought to hide from their own minds their shortcomings, their ignoble motives, by calling them love of peace. . . .

It is our duty to remember that a nation has no more right to do injustice to another nation, strong or weak, than an individual has to do injustice to another individual; that the same moral law applies in one case as in the other. But we must also remember that it is as much the duty of the Nation to guard its own rights and its own interests as it is the duty of the individual so to do. . . .

It is not true that the United States feels any land hunger or entertains any projects as regards the other nations of the Western Hemisphere save such as are for their welfare. All that this country desires is to see the neighboring countries stable, orderly, and prosperous. Any country whose people conduct themselves well can count upon our hearty friendship. If a nation shows that it knows how to act with reasonable efficiency and decency in social and political matters, if it keeps order and pays its obligations, it need fear no interference from the United States. Chronic wrongdoing, or an impotence which results in a general loosening of the ties of civilized society, may in America, as elsewhere, ultimately require intervention by some civilized nation, and . . . the exercise of an international police power.

LONG ESSAY QUESTION

The following is an example of a long essay question. Free-response questions 2, 3, and 4 in Section II of the AP Exam are long essay questions, and students will select one question of the three to answer.

2. Evaluate the extent to which the ratification of the United States Constitution fostered change in the function of the federal government in the period from 1776 to 1800.

In your response you should do the following:

- Respond to the prompt with a historically defensible thesis or claim that establishes a line of reasoning.
- Describe a broader historical context relevant to the prompt.
- Support an argument in response to the prompt using specific and relevant examples of evidence.
- Use historical reasoning (e.g., comparison, causation, continuity or change) to frame or structure an argument that addresses the prompt.
- Use evidence to corroborate, qualify, or modify an argument that addresses the prompt.

AP History Rubrics

Introductory notes:

- Except where otherwise noted, each point of the rubric is earned independently. For instance, a student could earn a point for evidence beyond the documents without earning a point for thesis/claim.
- Accuracy: The components of this rubric each require that students demonstrate historically defensible content knowledge. Given the timed nature of the exam, a response may contain errors that do not detract from its overall quality, as long as the historical content used to advance the argument is accurate.
- Clarity: Exam essays should be considered first drafts and thus may contain grammatical errors. Those errors will not be counted against a student unless they obscure the successful demonstration of the content knowledge, skills, and reasoning processes described in the rubrics.

Part B: Short-Answer Question with Secondary Source

1. “Of all the amusements that bedazzled the single working woman, dancing proved to be her greatest passion. After a long day laboring in a factory or shop, young women dressed themselves in their fanciest finery, put on their dancing shoes, and hurried out to the neighborhood hall, ballroom, or saloon equipped with a dance floor. . . . By the 1910s, over five hundred public dance halls opened their doors each evening throughout greater New York. . . . “New ballrooms and dance palaces offered a novel kind of social space for their female patrons, enhancing and legitimizing their participation in a public social life. The commercial culture of the dance halls meshed with that of working-class youth in a symbiotic relationship, reinforcing emergent values and ‘modern’ attitudes.”

Kathy Peiss, historian, *Cheap Amusements: Working Women and Leisure in Turn-of-the-Century New York*, 1986

“As strikers thronged the public streets of New York City [in 1909], demonstrated in parades and mass meetings, and picketed in front of factories, they challenged established assumptions about the identity and appearance of political actors and access to public space. These working-class, largely immigrant women comprised a subordinated group long denied an active voice in recognized political forums. By occupying the arena of labor politics through a mass strike, they demanded a voice.”

Nan Enstad, historian, *Ladies of Labor, Girls of Adventure: Working Women, Popular Culture, and Labor Politics at the Turn of the Twentieth Century*, 1999

Using the excerpts above, answer (a), (b), and (c).

- (A) Briefly describe ONE important difference between Peiss’ and Enstad’s historical interpretations of women’s emergence in the public sphere at the turn of the twentieth century.
- (B) Briefly explain how ONE specific historical event, development, or circumstance from the period 1880–1929 that is not specifically mentioned in the excerpts could be used to support Peiss’ argument.
- (C) Briefly explain how ONE specific historical event, development, or circumstance from the period 1880–1929 that is not specifically mentioned in the excerpts could be used to support Enstad’s argument.

- **Explain:** Provide information about how or why a historical development or process occurs or how or why a relationship exists.

Learning Objectives: Unit 6, Learning Objective I Unit 7, Learning Objective G

- (A) Describe one important difference between Peiss's and Enstad's historical interpretations of women's emergence in the public sphere at the turn of the twentieth century. **1 point** **3.C**

Examples that earn this point include the following:

- Peiss argues that pursuits of entertainment in dance halls by working class women created new, legitimate social spaces for women, however Enstad argues that working women's participation in labor politics gave them a new voice and place in the public sphere.
- Peiss links the growth of women in public social life to a commercial culture that provided opportunities for women to enter the public sphere while Enstad argues that women became political actors who demanded a public voice.

- (B) Explain how one historical event, development, or circumstance from the period 1880–1929 that is not specifically mentioned in the excerpts could be used to support Peiss's argument. **1 point** **3.D**

Examples that earn this point include the following:

- Like the dance halls, department stores and amusement parks became aspects of the commercial culture that represented new opportunities for women to enjoy public places as legitimate participants.
- The concept of the New Woman became a cultural phenomenon, as the older idea of separate spheres diminished. The idea of the New Woman supported a more public role for women in the early 1900s.
- The growth of cities and urban America gave young women more opportunities to leave rural America and participate in the developments described by Peiss.
- New technologies such as electric lighting made possible new public spaces for personal freedom for women.

- (C) Explain how one specific historical event, development, or circumstance from the period 1880–1929 that is not specifically mentioned in the excerpts could be used to support Enstad's argument. **1 point** **3.D**

Examples that earn this point include the following:

- Women's participation in the suffrage movement, settlement house work, temperance organizing, and the Progressive movement all contributed to modern attitudes about women and increased their roles in the public sphere.
- The ratification of the Nineteenth Amendment to the Constitution gave women the vote and a voice in politics.
- Women were the main participants in the New York shirtwaist strike of 1909. During this strike women made public demands like those described by Enstad.
- Women organized or participated in labor unions such as the International Ladies' Garment Workers' Union (ILGWU) which is an example of their growing voice in the public sphere.
- Working-class women had key public roles in the successful Lawrence (Massachusetts) textile strike of 1912, this demonstrates that women became active political voices through labor movements.

It seems to me that God, with infinite wisdom and skill, is training the Anglo-Saxon race for an hour sure to come in the world's future. Heretofore there has always been in the history of the world a comparatively unoccupied land westward, into which the crowded countries of the East have poured their surplus populations. But the widening waves of migration, which millenniums ago rolled east and west from the valley of the Euphrates, meet today on our Pacific coast. There are no more new worlds. The unoccupied arable lands of the earth are limited, and will soon be taken. The time is coming when the pressure of population on the means of subsistence will be felt here as it is now felt in Europe and Asia. Then will the world enter upon a new stage of its history—the *final competition of races, for which the Anglo-Saxon is being schooled*. . . . Then this race of unequaled energy, with all the majesty of numbers and the might of wealth behind it—the representative, let us hope, of the largest liberty, the purest Christianity, the highest civilization—having developed peculiarly aggressive traits calculated to impress its institutions upon mankind, will spread itself over the earth.

Source: Captain Alfred Thayer Mahan, *The Interest of America in Sea Power, Present and Future*, 1897.

To affirm the importance of distant markets, and the relation to them of our own immense powers of production, implies logically the recognition of the link that joins the products and the markets,—that is, the carrying trade; the three together constituting that chain of maritime power to which Great Britain owes her wealth and greatness. Further, is it too much to say that, as two of these links, the shipping and the markets, are exterior to our own borders, the acknowledgment of them carries with it a view of the relations of the United States to the world radically distinct from the simple idea of self-sufficingness? . . . There will dawn the realization of America's unique position, facing the older worlds of the East and West, her shores washed by the oceans which touch the one or the other, but which are common to her alone.

Despite a certain great original superiority conferred by our geographical nearness and immense resources,—due, in other words, to our natural advantages, and not to our intelligent preparations,—the United States is woefully unready, not only in fact but in purpose, to assert in the Caribbean and Central America a weight of influence proportioned to the extent of her interests. We have not the navy, and, what is worse, we are not willing to have the navy, that will weigh seriously in any disputes with those nations whose interests will conflict there with our own. We have not, and we are not anxious to provide, the defence of the seaboard which will leave the navy free for its work at sea. We have not, but many other powers have, positions, either within or on the borders of the Caribbean.

Long Essay Question

2. Evaluate the extent to which the ratification of the United States Constitution fostered change in the function of the federal government in the period from 1776 to 1800.

In your response you should do the following:

- Respond to the prompt with a historically defensible thesis or claim that establishes a line of reasoning.
- Describe a broader historical context relevant to the prompt.
- Support an argument in response to the prompt using specific and relevant examples of evidence.
- Use historical reasoning (e.g., comparison, causation, continuity or change) to frame or structure an argument that addresses the prompt.
- Use evidence to corroborate, qualify, or modify an argument that addresses the prompt.

General Scoring Notes

- Except where otherwise noted, each point of these rubrics is earned independently; for example, a student could earn a point for evidence without earning a point for thesis/claim.
- **Accuracy:** The components of these rubrics require that students demonstrate historically defensible content knowledge. Given the timed nature of the exam, essays may contain errors that do not detract from their overall quality, as long as the historical content used to advance the argument is accurate.
- **Clarity:** Exam essays should be considered first drafts and thus may contain grammatical errors. Those errors will not be counted against a student unless they obscure the successful demonstration of the content knowledge, skills, and reasoning processes described below.
